PROFESSIONAL SUMMARY

Data Analyst with 5+ years in enterprise sales at Classplus (EdTech), bringing a rare mix of business intuition and hands-on technical skills in SQL, Python, Power BI, and Excel. Proven ability to translate messy data into KPI-driven dashboards and actionable business insights — now targeting data analyst and MIS roles in fast-moving organisations.

DATA ANALYTICS PROJECTS

Bank Employee Attrition Analysis · Python · SQL · Power BI [GitHub](#) [End-to-End]

- Built a full analytics pipeline on 14,999-row HR dataset: cleaned data in Python (Pandas), queried patterns via SQL, and designed an interactive Power BI dashboard surfacing attrition peaks in Sales (21%) and among employees earning < ₹5K/month.

Blinkit Sales Analysis Dashboard · Power BI · DAX [GitHub](#)

- Built DAX-driven dashboard tracking outlet revenue, category performance, and location-wise trends across 8,500+ SKUs; enabled drill-through filtering by item type and tier.

Hospital Emergency Room Dashboard · Excel · Power Query [GitHub](#)

- Analysed 10,000+ patient records to surface wait-time distribution, peak admission hours, and department referral rates using dynamic pivot tables and slicers.

Cricket Data Analysis · SQL [GitHub](#)

- Wrote 15+ complex queries (CTEs, window functions, RANK, LAG) to identify top performers, win-rate trends, and toss impact across multi-season match data.

Sales Data Analysis · Python · Pandas [GitHub](#)

- Merged and cleaned multi-source sales CSVs (50K+ rows); visualised revenue seasonality, top-10 SKUs, and city-wise performance with Matplotlib.

PROFESSIONAL EXPERIENCE

Data Analyst Intern | CloudyML

May 2026 · Remote

- Delivered Power BI dashboard on bank attrition dataset (14,999 rows) and Ola ride-demand analysis — presented findings to cohort of 30+ analysts.
- Wrote SQL queries and Python EDA scripts to clean, segment, and extract KPIs; reduced manual reporting effort by automating summary tables.

Data Visualization Associate — Team Lead | Excelerate (UAE)

Apr 2026 · Remote

- Designed Looker Studio dashboards tracking compliance KPIs across 34,000+ international student records; flagged 3 anomaly clusters for review.
- Led a 5-member intern team: allocated tasks, reviewed query outputs, and presented project results to programme stakeholders.

Enterprise Team Lead | Classplus

2023 – 2025 · Delhi

- Managed 8-person enterprise sales team across high-value EdTech accounts; consistently ranked top 3 nationally out of 15+ teams.
- Drove quarter-on-quarter revenue growth; compressed deal-closure cycle by ~20% via standardised sales workflow and objection-handling playbooks.

Growth Manager → Pre-Sales Executive | Classplus

2019 – 2022 · Delhi

- Onboarded 50+ educators; used cohort-level sales data to identify pipeline gaps, improving conversion rate quarter-over-quarter.

TECHNICAL SKILLS

Languages: SQL (Joins, CTEs, Window Functions, Subqueries) · Python (Pandas, NumPy, Matplotlib)

BI & Viz: Power BI (DAX, Data Modelling, Star Schema, RLS) · Looker Studio · Tableau

Spreadsheets: Excel (Pivot Tables, Power Query, XLOOKUP, Dynamic Dashboards)

Concepts: EDA · KPI Reporting · Data Modelling · Trend Analysis · Business Storytelling

CERTIFICATIONS

Google Data Analytics — Google · Data Analysis & Power BI — Microsoft Learn · Data Analytics Job Simulation — Deloitte (Forage) · Data Analytics Live Program — CloudyML

EDUCATION

B.A. — Philosophy & Political Science | Zakir Husain Delhi College, University of Delhi

2016 – 2019
